To reiterate, the minimum requirements are provided so it doesn't mean that a stock or daily driver, for example, won't benefit from using an HEI or special MSD type electronic ignition.. In the table, the Minimum Requirements column denotes the intake, exhaust, carb, ignition, tranny, rear gearing, and compression needed to complement the cam in the specific intake duration column.. Example: 3800 pound 1970 GTO, 400 + 030 over, dished pistons, minor porting, 3 angle valve job, stock 1.. 5 to 1 compression to run on pump gasoline The engine came with the OEM 'S' camshaft (068); 212/225 @.. The first column contains the intended use or application category (Stock, daily driver, street-strip, etc) The other columns to the right, contain the intake duration of a cam at.
